

OWUSU PRINCE

owusukekeliprince@gmail.com | 0257605468/0558694381 | [LinkedIn Profile](#)

PROFILE

Computer Engineering student at Kwame Nkrumah University of Science and Technology (KNUST) with experience in software engineering, artificial intelligence, technical research, data analytics, and computer networking. Proven leadership as a Lead Researcher on international and university technology projects, with practical industry experience from the Electricity Company of Ghana (ECG). Passionate about building innovative technology solutions and applying engineering principles to solve real-world problems. Skilled in software development, AI/ML, Power BI, and research, with excellent analytical, teamwork, and communication skills.

EDUCATION

BSc. Computer Engineering Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana	Expected September 2026
W.A.S.S.C.E (General Science) Mawuli School, Ho, Ghana	September 2018 – September 2021
Ideal College, Accra, Ghana	January 2022 – September 2022

WORK EXPERIENCE

Intern, ECG Accra East Regional Office, Accra Central, Makola
September 2025 – November 2025

- Assisted the IT department in troubleshooting and maintaining computer systems.
- Participated in overhead line, underground cable, substation maintenance, and engineering project activities.
- Assisted with transformer inspections and preventive maintenance.
- Worked with multidisciplinary engineering teams to improve operational efficiency.

Lead Researcher
MSSAATECH USA (Virginia)
2024 – 2026

- Led multidisciplinary technology research projects.
- Coordinated research planning, technical documentation, and project execution.
- Collaborated with international researchers to develop innovative solutions.

ACHIEVEMENTS

- 2nd Place Winner – Heidelberg Materials Digital Hub Hackathon (Team Leader).
- Achieved high-ranking positions in multiple Zindi Artificial Intelligence and Machine Learning competitions.
- Led international research projects at MSSAATECH USA, Virginia.
- Demonstrated strong research, analytical, and software development capabilities through academic and independent projects.

PROJECTS/RESEARCH EXPERIENCE

Electricity Harvesting Using Piezoelectric Tiles on Campus (Final Year Project)

- Designed an energy harvesting system using piezoelectric technology to generate electricity from pedestrian movement.
- Conducted feasibility studies and system design for sustainable campus energy generation.

Photography Business Management System

- Designed a web application for booking, inventory management, equipment rentals, sales, and financial reporting.

TekMart Student Marketplace

- Conducted market research and system analysis for a secure student marketplace with verification, messaging, and payment features.

PROFESSIONAL TRAINING/ CERTIFICATION

Cisco Networking Academy – Packet Tracer	April 2026	Cisco
Splunk Fundamentals 1	February, 2026	Splunk
Mastercard Foundation Sustainable Business Start-ups	May 2026	MasterCard

LEADERSHIP EXPERIENCE

Vice President (June 2024 - June 2025)

Computer Engineering - KNUST

- Represented the interests of Computer Engineering students and supported executive decision-making.
- Coordinated academic, professional, and student engagement activities.
- Worked with faculty, student leaders, and stakeholders to organize events and initiatives.
- Promoted collaboration and effective communication within the department.

Team Leader (Team Titans)

- Heidelberg Materials Digital Hub Hackathon (2nd Place), Tweek 2025, KNUST

VOLUNTARY/EXTRA-CURRICULAR ACTIVITY

- **Church Technical Team**
Supported audio-visual systems, presentations, and technical operations during church services and events.
- **Photography**
Provided photography and media coverage for campus, church, and community events.
- **Tennis**
Active participant in recreational and competitive tennis, demonstrating teamwork, discipline, and resilience.
- **Artificial Intelligence & Data Science Competitions**
Participated in Zindi AI/ML competitions to strengthen practical machine learning and data analysis skills.

SKILLS AND ABILITIES

Programming Languages

- Python
- JavaScript
- HTML
- CSS
- C
- C++

Software Development

- Django
- Flask
- React
- Git & GitHub
- Firebase
- PostgreSQL

Artificial Intelligence & Data Analytics

- Machine Learning
- Data Analysis
- Power BI
- Tableau
- Pandas
- NumPy
- Zindi AI/ML Competitions

Networking

- Cisco Networking
- TCP/IP
- Network Configuration & Troubleshooting

Engineering

- Embedded Systems
- Digital Signal Processing
- System Design
- Technical Research
- PCB/Circuit Design

Personal skills

- Leadership
- Problem Solving
- Critical Thinking
- Research & Analysis
- Communication
- Team Collaboration
- Adaptability
- Time Management
- Attention to Detail
